

## Safety Data Sheet

### 1. INFORMATION ON THE SUBSTANCE / PREPARATION AND COMPANY

1.1 Product Name : VIOCHEM Cholesterol SR Kit (CHOD / PAP Method)

Kit	Catalog No.	Components
VIOCHEM Cholesterol SR Kit (CHOD / PAP Method)	705050080	L1- Cholesterol reagent S -Cholesterol standard

1.2 Intended Use :For the determination of Cholesterol in serum or plasma.

1.3 Company : **Coral Clinical Systems**  
(A Division of Tulip Diagnostics (P) Ltd.)  
Plot No. M-46, Phase III B, Verna Ind. Estate,  
Verna, Goa -403 722, INDIA.  
Tel :- +91-832-6680121  
Fax :- +91-832-2887028  
E-mail :- [coral@tulipgroup.com](mailto:coral@tulipgroup.com)

1.4 In emergencies Call your local emergency center.

#### 1. Composition / Information on Hazardous Ingredients

Chemical Name	CAS #	% W/V	Exposure Limits in Air				
			ACGIH		OSHA		OTHER
			TLV	STEL	PEL	STEL	

#### Reagent 1: Cholesterol Reagent

Chemical Name	CAS #	% W/V	ACGIH TLV	ACGIH STEL	OSHA PEL	OSHA STEL	OTHER
Sodium Azide	26628-22-8	0.1	N / A	0.29 mg/m <sup>3</sup>	N / A	N / A	NIOSH 0.3 mg/m <sup>3</sup> C (skin)

#### Reagent 2: Cholesterol Standard

Chemical Name	CAS #	% W/V	ACGIH TLV	ACGIH STEL	OSHA PEL	OSHA STEL	OTHER
Sodium Azide	26628-22-8	0.1	N / A	0.29 mg/m <sup>3</sup>	N / A	N / A	NIOSH 0.3 mg/m <sup>3</sup> C (skin)

### 2. Hazard Identification

#### Primary Routes of Entry:

Inhalation, ingestion, skin and / or eye contact.

#### Inhalation:

Inhalation of Vapours, mists, or sprays of these components may irritate the nose, throat, and lungs. Symptoms are generally alleviated upon breathing fresh air.

**Ingestion:**

Though not a likely route of occupational exposure, ingestion of this product, especially in large quantities, may cause gastric distress. Symptoms may include: nausea, vomiting, or diarrhea.

**Skin Contact:**

If the liquid or Vapours of this product come in contact with the skin, mild irritation may develop. Sodium Azide may enter body through skin.

**Eye Contact:**

If the liquid or Vapours of this product come in contact with the eyes, mild irritation may develop.

**Chronic Exposure:**

N/A

**Medical Conditions Aggravated by Exposure:**

N/A

**Health Effects:**

Sodium azide is used as a preservative in this product. Adverse health effects are not expected from the recommended use of this product.

**3. First Aid Measures**

**Inhalation:**

If breathing becomes difficult, remove victim to fresh air. Seek medical attention immediately.

**Ingestion:**

Get medical attention if there has been ingestion of this product.

**Skin Contact:**

Avoid skin contact. If skin contact occurs, remove contaminated clothing and wash exposed skin with water for atleast 15 minutes. Get medical attention immediately.

**Eye Contact:**

Immediately flush eye(s) with large volume of water for atleast 15 minutes, occasionally lifting the lower lids. Get medical attention immediately.

**4. Fire Fighting Measures**

Flash Point (Method used): NA                      Flammable Limits – LEL: NA                      UEL: NA

**Extinguishing Media:**

Use fire extinguishing media appropriate for site conditions.

**Special Fire Procedures:**

Structural firefighting gear and self-contained breathing apparatus will provide adequate protection if this product is in a fire area.

**Unusual Fire and Explosion Hazards:**

Sodium azide can react with copper, lead, brass, or solder in plumbing to form explosive compound of lead azide and copper azide. Sodium azide can react with acids to form explosive hydrogen azide.

**5. Accidental Release Measures**

**Steps to be taken in case material is Released or Spilled:**

PPE should be level D: lab gloves, chemical resistant apron, boots and splash goggles. Use an absorbent material to contain / pick up the spilled solution. Place all spill residue into a suitable container, seal, label and hold for disposal.

**6. Handling and Storage**

Refer to packet insert for additional information on handling and storage procedures.

**7. Exposure Controls and Personal Protection**

**Ventilation Data:**

A system of local and / or general exhaust is recommended to keep employee exposures as low as possible. Local exhaust ventilation is generally preferred because it can control the emissions of the contaminant at its source.

**Respiratory Protection:**

Respiratory protection is not required under normal use of this product. If respiratory protection is needed, follow OSHA respirator regulations (29CFR1910.134) and, if necessary, wear a NIOSH approved respirator. Select respirator based on its suitability to provide worker protection for given working conditions, level of airborne concentration, and presence of sufficient oxygen.

**Protective Gloves:**

Wear appropriate protective gloves to prevent skin contact. Replace torn or punctured gloves promptly.

**Other Protective Equipment:**

Wear appropriate eye protection to prevent eye contact. Wear appropriate body protection to prevent skin contact.

**Other Engineering Controls:**

Eye wash stations and deluge showers.

**Work Practices:**

Good laboratory technique should be used when handling this product. Observe appropriate chemical hygiene. Avoid contact with eyes or skin. Do not place in mouth.

**Hygienic Practices:**

Do not eat, drink, or smoke while working with product. Upon completion of work activities involving this product, wash hands thoroughly with soap and water.

**8. Physical And Chemical Properties**

**L<sub>1</sub>- Cholesterol Reagent**

Relative Vapour density(air = 1) :	NA	Evaporation rate( nBuAc = 1):	NA
Specific Gravity (water = 1) :	NA	Freezing / Melting Point :	NA
Solubility in Water :	Soluble	Boiling Point :	NA
Vapour Pressure, mm Hg @ 20°C:	NA	pH :	6.8-6.9

**S- Cholesterol Standard**

Relative Vapour density(air = 1) :	NA	Evaporation rate( nBuAc = 1):	NA
Specific Gravity (water = 1) :	NA	Freezing / Melting Point :	NA
Solubility in Water :	Soluble	Boiling Point :	NA
Vapour Pressure, mm Hg @ 20°C:	NA	pH :	NA

**Odour and Appearance Information**

**Reagent 1:** Clear, Colourless to light pink solution

**Reagent 2:** Clear, Colourless solution

**9. Stability and Reactivity**

**Incompatibility ( Materials to Avoid):**

Strong bases, strong acids, and water reactive materials.

**Hazardous Decomposition Products:**

Thermal decomposition may produce carbon monoxide and carbon dioxide.

**Will Hazardous Polymerization Occur?**

Hazardous polymerization will not occur.

**Conditions to Avoid / Polymerization:**

**Is the Product Stable?**

Yes, under normal handling and storage conditions.

**Conditions to Avoid/stability**

Stable Solution. Avoid acidification of solution, which may generate hydrogen cyanide gas.

**10. Toxicological Information**

**Toxicity Data:**

Benzethonium Chloride (undiluted): LD50 (rat, oral)=368mg/Kg;Irritation (rabbit, eye)=20 g, severe reaction.

**Reproductive effects:**

N/A.

**Target organ Effects:**

Eyes(redness), Skin(redness), central nervous systems(nausea/vomiting), cardiovascular systems (fall in blood pressure, change in heart rate), digestive(nausea/vomiting, diarrhea).

**Carcinogenicity: No**

CHEMICAL NAME	CAS #	% W/V	NTP Carcinogen		IARC	OSHA
			Known	Anticipated		
N/A.						

**11. Ecological Information**

Environmental Fate / Stability: N/A

Effect of Material on plants or animals: N/A

Effect of Chemical on Aquatic Life: N/A

**12. Disposal Considerations**

**EPA Waste Number and Proper Waste Disposal Method:**

Please consult local, state and federal regulations for additional guidance on disposal.

**13. Transportation Information**

**Is this Material Hazardous?** Not regulated under transportation regulations.

Proper Shipping Name : NA	Packing Group:NA	UN Number:NA
Hazard Class Number : NA		

**14. Regulatory Information NA.**

**15. Other Information**

NA => NOT APPLICABLE or NO INFORMATION
